CALL FOR PAPERS

Open (non-thematic) issue of Transfer, 4-2020

The Editor and Editorial Committee of Transfer invite submissions for the 2020 non-thematic ('Open') issue of Transfer of articles whose subject matter falls within the aims and scope of Transfer. Submissions accepted for publication in the Open issue can be published ahead of print on OnlineFirst.

Transfer is the quarterly peer-reviewed journal of the Research Department of the European Trade Union Institute. Its aim is to stimulate dialogue between the European trade union movement and the academic and research community. It contributes research findings on issues of strategic relevance for trade unions, in particular with regard to developments at the European level. Transfer publishes original peer-reviewed research on issues such as new developments in industrial relations, social policy, industrial organisation and labour market developments.

Given the European perspective of Transfer, the journal particularly welcomes submissions which take a comparative approach or which situate their specific discussion in a wider European framework.

In line with its aims, Transfer welcomes contributions not only from academics and researchers but also from practitioners.

Submission and referee procedure

Authors are strongly advised to consult recent issues of Transfer before submitting articles.

Articles proposed for publication in an open issue should be sent to the managing editor Marina Luttrell at: mluttrell@etui.org. The Editor and Editorial Committee will inform the author within 8 weeks whether or not the article will be submitted for refereeing.

Papers should preferably be written in English and should not have been published already, nor be currently under consideration elsewhere. Submissions in French and German will also be considered (and, if accepted for publication, will be translated into English). If the submission has been translated from another language, it should be accompanied by the original. Research should be presented in a non-technical manner that is accessible to a wide audience.

As all articles are refereed anonymously, please attach a separate page with your name, affiliation, email and postal address.

Articles should be between 5000 and 7000 words including notes and references and must be accompanied with an abstract of no more than 150 words and up to 8 keywords along with a short author biography.
