EDU STRATEGY 2020-2023

Pedagogical priorities
Pedagogical priorities

The results of the 3 brainstorming groups (pedagogical committee 11/09/18):

- Reaffirm inclusive trade union values
- Integrate technologies and human contact
- Increase participation and involvement

- Capitaliser, mutualiser et valoriser
- Profile et sélection des participants
- Learning by doing

- Trade union based values
- Train trainers
- Global learning
1. Integration of the pedagogical priorities:
What is our value proposition for our stakeholder* in the strategy 20-23?

(*participants=trade unions officers)

- ETUI EDUCATION offers a motivational and distinct European TU training in a multicultural setting that is affordable, accessible and delivered flexibly.

- We provide high quality training on key competences, skills and knowledge to European Trade Union members and officers in a transnational and multicultural setting, easy to access and focused on strengthening and expanding the sense of belonging to the same community.
2. Integration of the pedagogical priorities: the ETUI learning approach

- (...) Our systematic and comprehensive training is a space that enhances union values, a place of free thought and expression. We deal with labour related subjects with a European dimension. Our training activities are guided by the ETUC’s political priorities and values. The contents of our training activities are political, technical and operational, corresponding to clear and concrete needs of ETUC affiliates. (...)

- (...) We want ETUI Education to be a place for exchange of pedagogical experiences. We want to enlarge our network of European trade union trainers. We want to keep on innovating, further develop and improve our training offer at the European level. (...
Process to build the 2020-2023 strategy

- Info of the launching of the process
  - directors meeting September 2018
  - EDU Staff meeting September 2018
