## **Performance of EMU**

### **Policy mix in EMU:**

#### **how well has it managed the European business cycle?**

<i>Jack Fayolle and Andrew Watt</i> .....	17
1. US and euro-area business cycles .....	17
2. Business cycle developments within the euro area .....	19
3. The exchange rate dilemma of new and future member states .....	22
4. Management of the business cycle in the euro area .....	23
5. The recovery since the middle of 2003 .....	27
6. The persistent difficulty of managing divergence in euro area .....	29
Conclusions .....	31

### **Macroeconomic policy in and out of EMU:**

#### **a view from outside** .....

<i>Christopher Allsopp</i> .....	33
1. Introduction .....	33
2. Different diagnoses .....	35
3. The euro area as a whole: some comparisons .....	38
4. Individual countries and their interaction .....	44
5. The ‘German problem’ .....	49
Conclusions .....	55

### **The role of wages against the macroeconomic policy background: lessons from the first five years of the Lisbon Strategy**

<i>Rudolf Wetzmler</i> .....	59
1. Introduction .....	59
2. Wages in the ‘Maastricht’ policy assignment .....	60
3. A coordinated approach to pay policy in Europe .....	61
4. How has wage coordination fared in practice? .....	63
Conclusions .....	64

## **Refocusing the ECB on output stabilisation and growth through inflation targeting?**

<i>Jörg Bibow</i> .....	67
1. Praise the ECB: excellent performance, no need for reform, really? .....	67
2. Is the ECB an inflation targeter in disguise? .....	68
3. Bad old Bundesbank traditions in a new guise – and with even worse results .....	70
4. Revisiting the ECB's key policy blunders .....	74
5. Would inflation targeting have made or make any difference? .....	80
6. Proposals for ECB reform .....	85

## **Macroeconomic policy and potential growth**

### **The potential for growth, investment and macroeconomic policy in Europe**

<i>Ludwig Schubert</i> .....	91
1. Introduction .....	91
2. The potential for growth and employment .....	92
3. How can faster growth of the production potential be achieved? .....	96
Conclusions .....	101

### **Aggregate demand policy and the labour market**

<i>John Morley</i> .....	103
1. Introduction .....	103
2. The link between economic and labour market performance .....	105
Conclusions .....	116

## **The links between structural reforms and macro policy**

### **Structural reforms and macroeconomic policy**

<i>Gustav A. Horn</i> .....	119
1. Introduction .....	119
2. Structural reforms and macroeconomics .....	120
3. The German example – a simulation .....	123
Conclusions .....	128

**Structural and macroeconomic policies in the Kok Report**

*David Coats* ..... 131

1. Introduction ..... 131

2. What do we mean by structural policies? ..... 132

3. The Lisbon Agenda – initial statement and evaluations ..... 134

4. The UK as ‘liberal’ economy ..... 144

5. So what does this mean for policy? ..... 146

**The way forward:  
reforming Europe’s macro policy regime**

**Macroeconomic policymaking – lessons from Austro-Keynesianism**

*Franz Nauschnigg* ..... 151

1. Introduction ..... 151

2. Features of Austro-Keynesianism ..... 151

3. Austro-Keynesianism and EU membership ..... 152

4. Innovative demand management ..... 154

5. Economic results of Austro-Keynesianism ..... 155

6. From Austro-Keynesianism to the neo-liberal paradigm ..... 157

Conclusions ..... 159

**More and better jobs for Europe:**

**Europe needs more flexible macroeconomic policies**

*Ronald Janssen* ..... 161

1. Introduction ..... 161

2. The wrong culprits: lack of structural reform and insufficient competitiveness ..... 162

3. The real culprit of the long European downturn: inflexible macroeconomic policymaking insufficiently supportive of confidence and domestic demand ..... 166

4. Why competitive disinflation will never work for the euro area ..... 170

5. Aggregate demand policy is not simply a ‘straw fire’! ..... 171

6. Inflexible monetary policy in the euro area: are rigid wages and sticky inflation to blame? ..... 173

7. Making Europe its own engine of growth: reform of the European macroeconomic policy regime ..... 179

**Towards an intelligent Stability and Growth Pact**

<i>Paul De Grauwe</i> .....	189
1. Introduction .....	189
2. The long-term objective .....	189
3. How much flexibility? .....	192
4. A proposal .....	193
Conclusions .....	195

**The coordination of economic policy in EMU**

**What contribution can the Macroeconomic Dialogue make to higher growth and employment?**

<i>Andrew Watt</i> .....	199
1. Introduction .....	199
2. The policy mix in EMU .....	199
3. Difficulty of fundamental reforms, but scope for behavioural changes ....	206
4. A model of monetary-wage policy coordination in an EMU-type context .....	208
5. MED and policy coordination: what reforms are necessary? .....	219
6. Actor interests and the prospects for reform .....	222
Conclusions .....	225

**Speeches to conference**

**The Lisbon strategy – a key priority of the European Commission**

<i>José Manuel Barroso</i> .....	233
----------------------------------	-----

**ETUC demands and perspectives for the Lisbon mid-term review**

<i>Reiner Hoffmann</i> .....	241
------------------------------	-----
