Agnieszka Piasna is senior researcher in Economic, Employment and Social Policies research unit at the European Trade Union Institute (ETUI) in Brussels. She holds a PhD in sociology from the University of Cambridge. Her research interests lie in the areas of job quality, working time, labour market regulation, gender and digitalisation. She currently carries out research on the platform economy in Europe and she coordinates the ETUI Internet and Platform Work Survey. The project includes developing tools for data collection on the extent and characteristics of work through platforms, and assessing their social and economic impact. At the ETUI, she also develops the European Job Quality Index and carries out research into work and employment conditions in the EU.
