Employment and social developments
December 23, 2020
The European Commission has published the new edition of the Employment and Social Developments Quarterly Review, analysing the effects of the coronavirus pandemic on jobs and incomes. The review shows that the coronavirus crisis has caused an unprecedented loss in income from work.

Wage differences between migrants and nationals
December 14, 2020
The International Labour Organization (ILO) published a report on the migrant pay gap. This report analyses how migrant wages have evolved in different countries before the COVID-19 pandemic. It details the difficulties faced by migrants in receiving the same pay as nationals. It examines gender discrimination affecting women migrants and the difficulties migrants have in getting a job that corresponds to their level of education. It also includes first indications of the impact of the COVID-19 crisis on migrant workers.

In-work poverty rises by 12%
December 10, 2020
In-work poverty increased over the last decade in most European countries, with around 12% of workers at risk of poverty, according to a report by the European Trade Union Confederation (ETUC). The number of people considered to be ‘working poor’ has increased in the majority of member states over the last decade.

Employee monitoring and surveillance
December 9, 2020
New digital technologies have expanded the possibilities of employee monitoring and surveillance, both in and outside the workplace. In the context of the increasing digitalisation of work, there are many issues related to employee monitoring that warrant the attention of policymakers. Based on input from the Network of Eurofound Correspondents, this report explores the regulatory approaches to workplace monitoring in Europe, and the many challenges arising from the use of new digital technologies.

Social partners warn for shortage skilled workers
December 31, 2010

The Labour and Economic Chambers warn that the shortage of skilled workers is growing. Two thirds of the companies could already no longer fill their vacancies. At the same time, skilled workers are urgently needed to strengthen the economy after the crisis. In 2021 everything will be focused on professional orientation, training and further education among the social partners.

Balance between work and childcare
December 14, 2020

Balancing work and childcare became more difficult during the second lockdown. According to a Sora study, the working hours of working parents are approaching pre-crisis levels. Although schools remained open, only around 30% of the children were in care. The fact that home office and childcare are difficult to combine and that not everyone has the opportunity to work at home has already got around in the crisis year. For this study 685 parents of children up to 14 years of age were surveyed during the second lockdown between November 19 and 27 and the data were compared with a survey from the spring.

Belgium

Raise of unemployment benefits
December 27, 2020

The Government decided to increase the minimum unemployment allowance each year during its term of office. From the 1st of January, 2021, the allowance will go up by 1.125% each year, not counting automatic wage indexation and welfare-envelope payments. According to the Economic Affairs and Labour Ministry the increases will add up to 16% for the entire legislature, when indexation hypotheses and welfare-envelope payouts are factored in.

Public transport strikes
December 16, 2020

Staff of the public transport company De Lijn went on strike but have not set an end date, the unions confirmed. The strike announcement came after the failure to reach an agreement with De Lijn management on the operation of the technical service. Additionally, the unions are calling for an increase in all wages in the technical service.

Daily premium for temporarily unemployed workers
December 11, 2020

Workers who have been on temporary unemployment for longer than two months due to the coronavirus will get an additional premium of €10 per day. Around 400,000 workers have been temporarily unemployed for more than two months. Recent numbers from social secretariat SD Worx show that 14% (or one in seven) of private sector workers were temporarily unemployed for at least one day in November.

**Higher wages due to tax reform**
December 20, 2020

In 2021 the fifth round of tax reform will be implemented under which the two income tax rates will be reduced from 24% to 20% and from 36% to 30%. The amended Income Tax Act will result in higher wages and pensions. The lowering of tax rates could increase workers' wages up to 2,000 kuna (€ 267).
Cyprus

Employees’ wages fall

Employees earned less in 2018 than in 2010 according to data released by the Cyprus Statistical Service (CyStat). CyStat says that according to the results of the Structure of Earnings Survey 2018, the total monthly earnings of full-time employees averaged €1,837 (males €1,977 and females €1,676).

One in five companies expect permanent reductions in staff

One in five firms expect a permanent reduction in their staff levels because of the COVID-19 pandemic, with the figure rising to one in three businesses in the service sector (35%), according to the annual European Investment Bank Investment Survey (EIBIS).

Government appeals to businesses not to sack workers

The Government appealed to businesses impacted by the coronavirus restrictions to refrain from sacking employees, as the Government will continue subsidising salaries throughout December. The Labour Ministry issued a statement specifying that businesses forced to suspend operations or that have experienced a decline in turnover of 80% or more during the month of November qualify for the same state assistance for December.

Czechia

Call to continue job retention schemes

After years of steady growth that lifted incomes the economy has been hit hard by the COVID-19 crisis. The latest OECD Economic Survey of Czechia says that with job losses expected to rise, the government should be ready to provide further support until a recovery is fully under way and actively help those who have lost their jobs to find new ones. Job retention schemes can then be gradually phased out.

Lowest unemployment rate

Data published by the Czech Statistical Office in the Statistical Yearbook 2020 show that last year, the Czech Republic had the lowest unemployment rate in the EU for the fourth year in a row. The unemployment rate reached only 2% whereas the EU average stood at 6.3%.
**Wage compensation for hospitality sector**  
*December 10, 2020*

The Government agreed on a provision for wage compensation for businesses affected by the partial lockdown currently effective in 38 Danish municipalities. The compensation scheme pays for up to 75-90% of wages up to 30,000 kroner (€ 4,057) per month and enables restaurants to furlough table staff while keeping on kitchen staff, with businesses still permitted to operate takeaway services. The deal will save jobs in the sector, according to a representative from Horesta, the interest organisation for the hospitality sector.

**Finland**

**Promotion of employment of ageing workers**  
*December 18, 2020*

The Government agreed on measures to promote employment among over 55-year-olds, deciding to gradually fade out the so-called unemployment path to retirement. The unemployment path to retirement refers to the additional days of unemployment allowance available to ageing job seekers who meet certain work-related conditions. The Government’s objective is to improve employment with structural reforms.

**Government relaxes timeframe for reaching 75% employment rate**  
*December 12, 2020*

The government said it has not abandoned its goal of reaching a 75% employment rate by the year 2023, which means adding 60,000 jobs to the labour force. Before the pandemic hit, experts considered the 75% goal as challenging in a period of sluggish economic growth. To raise the employment rate, the government has set its sights on getting 10,000 more people over age 55 into work.

**Social partners strike national agreement on occupational health**  
*December 11, 2020*

The trade union and employer organizations struck an interprofessional agreement on occupational health. The negotiators from all the employer associations issued a favourable opinion on the text, while CGT union rejected the deal. The agreement stipulates that efforts to ensure occupational health should focus on a preventive approach. The agreement also addresses the issue of funding and governance of prevention and occupational health instruments, as well as interconnection with local health services. The parties have until 8 January to validate the agreement, after consultation with their constituents.

**Greece**

**General strike**  
*December 11, 2020*

In different cities workers went on strike to defend workers’ wages and benefits. Their actions defied government restrictions introduced in response to the pandemic, which limit gatherings of more than three people. The Government has introduced bills into Parliament which require workers to accept a 10-hour workday while only getting paid for 8 hours, along with substantially lower wages and Sunday work.

**Unions call strike of media workers**  
*December 10, 2020*

Journalists, producers and technical staff decided to go on strike to protest against planned changes to the press laws. Unions representing the media workers informed that the planned changes are a great blow to the press workers as they “would pave the way for mass layoffs”. It was underlined that the proposed law, which aims to reduce the requirement of 400 employees at television channels to 280, includes more flexible articles against journalists regarding their employment contracts.

**Hungary**

**Second round of job protection funding**  
*December 28, 2020*

Hungary will have another chance from 2021 to apply for funds from the European Union’s SURE fund to help employees suffering the consequences of the coronavirus pandemic. The EC’s instrument for temporary Support to mitigate Unemployment Risks in an Emergency (SURE) has been created to support countries hit by the coronavirus epidemic, by disbursing loans to support short-term work schemes and other measures.

**Supplement to protection plan**  
*December 19, 2020*

The government has supplemented the social economic protection action plan in the interest of workers and businesses. The government would subsidise two-thirds of payroll costs in December and January at businesses forced to close temporarily because of the epidemic. The local business tax would be halved for small- and medium-sized enterprises and sole proprietors from January 1. These businesses account for the most workplaces and are also the most vulnerable during the epidemic.

**Iceland**

**High unemployment among foreign nationals**
December 15, 2020

According to the National Register of Iceland, foreign nationals’ share of the overall population increased by 1.5 percentage points compared to 2018. 12.4% of people living in Iceland in 2018 were foreign nationals, compared to 13.9% in 2020. However, the national broadcasting service, RÚV, reports that the unemployment rate is much higher for foreign nationals (24%) than it is for Icelandic citizens (12%). In addition, immigrants are also less likely to be hired than Icelanders.

Proposals for a two-year agreement in public service
December 11, 2020

Public service trade unions have negotiated a new two-year agreement which will now be considered by each union’s national executive and put out to ballot of all individual members. The national executive of the Fórsa trade union has already decided to recommend the agreement to its members. The two-year agreement will run from 1 January 2021 to 31 December 2022 and there will be a general pay increase of 1% or EUR 500, whichever is higher, in October of both years. In February 2022, an additional 1% will be available in sector bargaining funds.

Italy

Public sector workers strike
December 9, 2020
A nationwide strike brought large portions of the public sector to a standstill. According to the trade unions, more than three million workers participated in the strike. The public sector union federations that called the strike cover public administration employees, civil servants, education and health care workers, though hospital employees remained on the job. The strike was called by unions to demand the renewal of the civil servants’ collective contract, which expired late in 2018, and call for a large-scale recruitment drive and improved workplace safety.

Emergency bonus payment
December 1, 2020

A new payment is available to workers in sectors hit hardest by the coronavirus restrictions. Under another new financial aid package funds are being made available for businesses and workers who have lost their incomes to the latest round of coronavirus restrictions. The package includes a €1,000 payment for workers in tourism, leisure and the arts, and €800 for people working in sports, as well as seasonal workers, and other temporary, freelance or precarious workers.

Latvia

New support measures
December 22, 2020

The Government approved urgent amendments to the Law on Unemployment Insurance in the final reading. These amendments will extend the term during which unemployment assistance benefits are paid to people who fail to find a job after the end of the unemployment benefit period. The aforementioned term is thereby extended until 30 June 2021. The level of the benefit is €180 a month. This benefit can be received for a period of four months.

Parliament ‘freezes’ government members’ wages
December 21, 2020

The Government supported the proposal to freeze wages of Government members. With this decision the wages of ministers and parliamentary secretaries of ministries will not rise in 2021 and will remain on the level of 2020. This is required by the urgent amendments approved for the Law on Remuneration of Officials and Employees of State and Local Government Authorities.

Increase of healthcare worker wages
December 3, 2020

The Government decided to increase the lowest wages of healthcare workers by 25%, as confirmed by the Healthcare Ministry. It is planned to allocate a budget for the increase of wages of healthcare workers in 2021 and onward. This will provide the option to increase the lowest wages of healthcare workers in inpatient and outpatient sectors, as well as family doctors and residents by 25%.

Liechtenstein

Number of job seekers declines
December 1, 2020
The situation on the labour market in November 2020 continues with a further decline in job seekers. At the Labour Market Service Liechtenstein (AMS FL), 361 unemployed were registered at the end of November, 16 fewer than in the previous month. The unemployment rate fell from 1.9% in October 2020 to 1.8% in November. Compared to the same month last year, unemployment increased by 105 people. The unemployment rate rose by 0.5 percentage points compared to the same month last year.

**Collective wage increases drop faster than in previous crises**

*December 7, 2020*

The wages of employees covered by collective agreements are already increasing less rapidly due to the coronavirus crisis, while in the past wages always took some time to respond to economic developments. According to employers' organization AWVN, companies are now realizing much more quickly that there are tough times ahead. According to trade union FNV, employers are abusing the coronavirus crisis. In the collective agreements concluded last year, wages increased by an average of 2.8%. This year that’s an average of 2.5% so far, and that average is expected to fall further in the coming months.

Failing to pay minimum wage
December 31, 2020

Almost 140 companies, including some of the biggest household names, are being named and shamed for failing to pay their workers the minimum wage. Investigated between 2016 and 2018, the 139 named companies failed to pay £6.7 million (€7.55 million) to over 95,000 workers in total, in a flagrant breach of employment law. The offending companies range in size from small businesses to large multinationals who employ thousands of people across the UK.
