ETUI background

ETUI, The European Trade Union Institute is the independent research and training centre of the European Trade Union Confederation (ETUC) which itself affiliates European trade unions into a single European umbrella organisation. The ETUI places its expertise in the service of workers' interests at European level and of the strengthening of the social dimension of the European Union.

One of the two of ETUI's departments – the education department – is responsible for training courses for the national confederations and European federations. The strong strategic and educational activities from ETUI's Education department are face to face. The target groups are very diverse.

All the training activities are for the trade union movement and have a European dimension. In this way, they help to strengthen the social dimension of the European Union. (See <http://www.etui.org/Training>). ETUI's online learning is and will be managed by the ETUI Education Department. It is aimed to develop and train an online tutor's network during the next years.
